

## Eco Mark Product Category No.123

### **“Building Products (Materials) Version2.0” Certification Criteria (draft)**

#### Applicable Scope

- A. Materials for concrete work (scheduled)
- B. Materials for concrete blocks, ALC panels, and extruded cement boards (scheduled)
- C. Materials for waterproofing work
- D. Materials for masonry
- E. Materials for woodwork
- F. Materials for roofing and gutter work (scheduled)
- G. Materials for plastering work (scheduled)
- H. Materials for joiner's work
- I. Materials for carpentry
- J. Materials for curtain and related works (scheduled)
- K. Materials for unit and other works (scheduled)
- L. Materials for drainage work (scheduled)
- M. Materials for exterior finish work (scheduled)
- N. Materials for exterior facility work (scheduled)

Established: May 1, 2007 (scheduled)

Term of validity: April 30, 2012

Eco Mark Product Category No.123 “Building Products (Materials) Version2.0”  
Certification Criteria (Draft)

## **Category H-2 Sliding-door paper, fusuma paper**

Japan Environment Association  
Eco Mark Office

### **1. Applicable Scope**

Japan Industrial Standard “Sliding-door paper” JIS S 3102, fusuma paper

### **2. Certification Criteria and Certification Procedure**

To show conformance to the individual criteria, the Applicant shall submit the respective Attached Certificate forms duly filled in.

In the event re-examination under the present Certification Criteria is sought for a product that is already certified in the Product Category No.104 “Household Textile Products Version 2,” the Recycle Material Certificate issued by the supplier of the recycled material which is one of the procedures to show conformance to the applicable criteria 4-1(1) as well as the certification procedures (2) and 4-2(4) may be substituted by filling in necessary items on the Attached Certificate form and declaring further therein that no alterations have been made to the product already certified. In the event re-examination under the present Certification Criteria is sought for a product that is already certified in the Product Category 123 “Building Products Using Recycled Materials” the Recycle Material Certificate issued by the supplier of the recycled material which is one of the procedures to show conformance to the applicable criteria 4-1(1) as well as the certification procedure 4-2(4) may be substituted by filling in necessary items on the Attached Certificate form and declaring further therein that no alterations have been made to the product already certified.

#### **2-1. Environmental Criteria and Certification Procedure**

(1) The content of used paper pulp or the mass of recycle fiber in the total mass of fiber portion of the Product shall be no less than 50%. In the case of chemically recycled fiber, however, the content of recycled monomer shall be no less than 50% as monomer.

[Certification Procedure]

The Applicant shall fill in the names of recycled materials and their respective contents on the Attached Certificate form and submit it together with the raw materials certifications issued by the respective raw material suppliers.

(2) The Product shall contain none of the dyestuffs listed in Attached Table 1 as recipe formulation components.

[Certification Procedure]

The Applicant shall state in the Attached Certificate form the conformance (or lack thereof) to this criteria and submit it together with certifications issued by the respective raw material suppliers.

(3) Applicable environmental laws and regulations, pollution prevention agreements and any other requirements shall have been observed in the course of the Product manufacture with respect to air pollution, water contamination, noise, vibration, obnoxious odor, emission of hazardous substances, etc.

[Certification Procedure]

The Applicant shall submit a statement signed by the general manager of the manufacturing site of the Product declaring that all applicable environmental laws and regulations and the like have been observed and no violations or the like have been committed during the five-year period preceding the date of application.

## 2-2. Quality Criteria and Certification Procedure

(4) The sliding-door paper shall conform to JIS S 3102.

The quality of fusuma paper shall have been properly managed in accordance with in-house standards and the like. Further, the fusuma paper Product shall have been subjected to full quality management during the manufacturing process.

[Certification Procedure]

The Applicant shall submit a document certifying the test results and other data to show conformance to the applicable JIS standards, in-house standards or the like. In the event the Product or the manufacturing site of the Product has been certified by JIS or the like, submission of a copy of certificate issued by JIS or the like shall suffice for the aforesaid purpose.

Established (scheduled) (Version 2.0): May 1, 2007

Validity Period: April 30, 2012

The Certification Criteria for the Product Category will be revised when necessary.
